EDUCATION

Maharishi Dayanand University

B.Tech - Computer Science and Engineering

2021 – 2025

Delhi, India

SUMMARY

Full Stack .NET Developer with experience building scalable web applications using ASP.NET Core, React.js, TypeScript, and SQL Server. Skilled in developing RESTful APIs, responsive user interfaces, and database-driven applications with a focus on performance, maintainability, and user experience.

SKILLS

- C#
- ASP.NET Core
- ASP.NET MVC
- SQL Server
- Entity Framework Core
- LINQ
- React.js
- JavaScript
- REST APIs
- HTML/CSS
- TypeScript
- Tailwind CSS
- Git/GitHub
- jQuery
- Redux Toolkit
- JWT Authentication

EXPERIENCE

Sriggle Tech Pvt Limited 

Application Engineer

May 2025 – Present

Faridabad, Haryana

- Developed and integrated RESTful APIs using ASP.NET Core to enhance backend communication, scalability, and application performance.
- Built responsive and dynamic user interfaces using React, TypeScript, HTML, CSS, and modern frontend practices to ensure seamless cross-browser compatibility and user experience.
- Optimized database queries using LINQ and Entity Framework Core to improve data retrieval performance.

Quantum IT Innovation 

Full Stack Developer

Dec 2024 – May 2025

Noida, New Delhi

- Developed scalable single-page applications using React.js and TypeScript, delivering responsive UI components and improving overall user interaction.
- Managed complex application state using Redux Toolkit and implemented reusable component architecture for improved maintainability and scalability.
- Deployed frontend and backend applications using Vercel and IIS for production-ready hosting.

PROJECTS

Cartify - Ecommerce   | [Reactjs](#), [Typescript](#), [ASP.NET Core](#), [EntityFramework Core](#)

2025

- Developed a full-stack ecommerce web application using React, TypeScript, .NET Core, and Entity Framework with a modern and responsive user interface.
- Implemented product management, authentication, shopping cart functionality, order processing, and database integration using Entity Framework and SQL Server.

CrownLedger - Fintech   | [C#](#), [ASP.NET](#), [Bootstrap](#), [Jquery](#), [JavaScript](#), [SQL Server](#), [Html5](#)

2025

- Implemented secure user authentication and role-based authorization to protect sensitive financial data and ensure controlled system access.
- Built a responsive MVC-based finance platform with SQL Server integration, transaction tracking, balance management, and real-time financial insights dashboard.

ACHIEVEMENTS & EXTRACURRICULAR

- Maintained 90% client satisfaction rate across web development projects as a Freelancer.
- Contributed to open-source projects, improving coding practices and collaboration abilities.
- Participated in school-level volleyball competitions, developing leadership and team collaboration skills.
